

toner "Compatibili" DIN 33870- Equivalenti al 100%

L'istituto di normalizzazione tedesco DIN, ha creato la normativa 33870: un Capitolato d'Opera emesso allo scopo di certificare sia l'alta qualità dei prodotti, che la cura degli aspetti ambientali. Contemporaneamente la grande confusione riguardo alla qualità ed alla sicurezza dei prodotti disponibili sul mercato, la norma DIN 33870 aiuta gli utilizzatori ad evitare l'offerta di Toner Unit di qualità incerta o scadente.

KMP PrintTechnik ha aderito alla normativa DIN 33870 sin dal suo esordio per produrre i propri toner, per i quali il riferimento è esclusivamente la perfetta compatibilità ed equivalenza con il consumabile di riferimento senza alcun compromesso. Nuove materie prime analoghe, esclusione di prodotti nocivi, controlli e test parziali e finali, qualità di stampa, prestazioni comparate, rispetto dell'ambiente e degli smaltimenti:

toner Text Quality

L'esperienza derivante dall'adesione alle norme DIN 33870 ha portato all'estensione delle metodiche produttive anche ad alcuni articoli di produzione standard, che si differenziano dalla linea di prodotto principale per il riutilizzo di alcune parti approvate dopo una fase di selezione e test. Pur se sottoposti alla stessa procedura produttiva, in questo modo si ottengono articoli privi della certificazione DIN 33870, idonei per applicazioni di testo, testo/grafica per applicativi standard in ambito industriale/professionale/gestionale. Anche il packaging semplificato contribuisce ad una offerta economicamente più vantaggiosa per alcuni prodotti ad elevato consumo e rotazione.

ink jet

Le nostre cartucce rappresentano sempre garanzia di eccellente funzionalità operativa e di qualità costante e certificata secondo le severissime Norme Din 33871-1 e 33871-2, quindi ben oltre l'ormai sperimentato ISO 9000:2001 VISION, che riguarda ogni processo aziendale.

Le stampanti Ink Jet sono macchine dalle prestazioni eccellenti, che richiedono però alcune semplici attenzioni e precauzioni, come previsto dalle Case Costruttrici.
